

# SharePoint Jumpstart™ from Aspect

Many organizations want to implement Microsoft® SharePoint® 2010, but are not sure where to start or are hesitant to invest in a drawn-out discovery, design and deployment project. In addition, many organizations want to offer a rich, content-filled portal as soon as they go live—a difficult task starting “from scratch.” The SharePoint JumpStart package from Aspect offers a production-ready Microsoft® SharePoint® portal complete with content and rich web parts.

The SharePoint JumpStart framework takes advantage of Aspect’s rapid deployment patterns and practices to define and deploy a fully working Microsoft SharePoint 2010 portal with value-added components in a very short time.

This framework offers clients the choice of four different service levels that may include planning, configuration, mentoring, and implementing Aspect’s customized web part package\* in a quick, cost-effective approach.

## SharePoint Jumpstart from Aspect

### *Four Editions to Match Budgets and Requirements*

The SharePoint JumpStart from Aspect is offered in four editions—Bronze, Silver, Gold and Platinum which allows companies to right-size their SharePoint investment by choosing the content and price point that fits their budget and requirements.

### *Implement a Production-Ready Portal that Meets Business Needs*

The four editions include business requirements gathering with stakeholders to determine how a SharePoint portal meets their needs. The SharePoint JumpStart from Aspect’s Silver, Gold, and Platinum editions offer a production-ready portal complete with rich web parts and content.

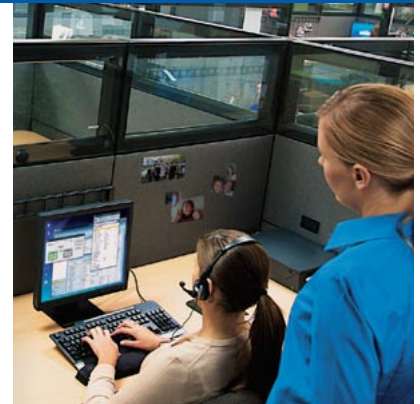

### *Not a One-Size-Fits-All Implementation*

Although the Aspect Jumpstart framework comes with a rich set of content and web parts, the portal planning and deployment is tailored to fit each organization.

### *Access to Additional Value-Added SharePoint Solutions*

Aspect has developed a large number of SharePoint tools and applications including policies and procedures, learning management, performance management and media platform solutions that are available with the Jumpstart framework at a discount.

\*Actual web parts are subject to change

## Benefits

- Ideal for organizations who want to deploy a fully working SharePoint portal within a short time frame.
- Four levels of offerings allow organizations to choose the edition that fits their needs.
- Production-ready portal with rich web parts and content tailored to your organization.
- Value-added SharePoint applications and solutions available.
